[LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Full Stack Developer with experience in building scalable web applications using MERN Stack, Next.js, and SQL databases. Skilled in developing RESTful APIs, JWT authentication, database design, AWS, Docker, and CI/CD. Passionate about writing clean, maintainable code and delivering high-performance applications.

TECHNICAL SKILLS

- Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL
- Frontend: React.js, Next.js, Tailwind CSS, Responsive UI Development
- Backend: Node.js, Express.js, RESTful API Development, API Integration, Authentication & Authorization
- Database: MongoDB, Mongoose, PostgreSQL, Database Schema Design, CRUD Operations
- Tools: Git, GitHub, Postman, Jira
- DevOps: (Basics) Docker, GitHub Actions (CI/CD)

PROFESSIONAL EXPERIENCE

Fullstack Developer - Softgrid Info Pvt. Ltd | May 2025 to Present

- Developed and maintained scalable Full Stack applications using MERN Stack and modern JavaScript.
- Implemented RESTful APIs using Node.js and Express.js for efficient frontend-backend communication.
- Built reusable React.js and Next.js components to improve application scalability and maintainability.
- Developed secure authentication systems using JWT and Role-Based Authorization.
- Designed MongoDB and PostgreSQL database structures based on application requirements.
- Optimized database queries and API performance for better response time.
- Used Docker for application containerization and deployment workflows.
- Assisted with AWS EC2 and S3 based application deployment and configuration.
- Collaborated with developers, QA engineers, and UI/UX teams in Agile/Scrum environment.

PROJECTS

[Technical Spark](#) | Ed-Tech Learning Platform

- Engineered a MERN ed-tech portal supporting **500+ concurrent users** with 99.9% uptime.
- Contributed to building a production-grade full-stack web application for an international client.
- Built scalable Node.js/Express.js RESTful APIs to streamline course content delivery.
- Enforced token-based authentication and role-based access control mechanisms.
- Optimized MongoDB query indexing, boosting data retrieval speed by **25%**.
- Supported application deployment on AWS and assisted with CI/CD pipelines using GitHub Actions.

[Vimal Transformers](#) | Transformer Repair Service Website

- Independently built the complete frontend and backend for a transformer repair service company.
- Designed responsive React.js UI to showcase company services and capture customer inquiries.
- Developed Node.js/Express.js REST APIs to manage service requests and business data.
- Designed MongoDB schema for storing and managing service-related information.

EDUCATION

Master of Computer Applications (MCA) - Anantrao Pawar College Pune CGPA- 7.11 | June 2025

Bachelor of Computer Applications (BCA) - Dr. D. Y. Patil College, Pimpri, Pune, CGPA- 8.25 | Sept 2022

CERTIFICATIONS

[Accenture North America](#) – Coding: Development & Advanced Engineering | April 2025

[Outskill](#) – 2-Day Generative AI Mastermind | April 2026
