Professional Summary

Full Stack Developer with expertise in building scalable and responsive web applications using the **MERN stack (MongoDB, Express.js, React, Node.js)**. Proficient in frontend and backend architecture, RESTful API integration, and delivering high-quality, performance-driven software solutions.

Technical Skills

Full Stack Development: MERN Stack (React.js, Node.js, Express.js, MongoDB)

Front-End: HTML5, CSS3, JavaScript (ES6+), React.js, Redux, Tailwind CSS

Back-End: Node.js, Express.js, RESTful API Design

Databases: MongoDB (Schema Design & Query Optimization), MySQL

Tools & Platforms: Git (Version Control), Postman (API Testing), Jira (Agile Project Management), GitHub

Soft Skills: Cross-Functional Collaboration, Problem Solving, Rapid Learning

Work Experience

Full Stack Developer — SoftGrid Info Pvt. Ltd

November 2024 – Present

- Architecting full-stack web applications using React, Node.js, Express.js, and MongoDB.
- Authoring responsive and intuitive user interfaces aligned with modern UI/UX standards.
- Designing robust RESTful APIs and optimizing database schemas for enhanced performance.
- Developed and maintained full-stack MERN applications serving 1,000+ users, improving engagement.
- Collaborating with cross-functional teams to deliver project milestones within deadlines.

Projects

• Technical Spark | Ed-Tech Learning Platform

- Engineered a comprehensive full-stack educational portal using the MERN stack to facilitate online learning.
- Planned highly responsive and user-centric interfaces with React.js and state management.
- Created scalable backend services and API endpoints using Node.js and Express.js.
- Optimized data management and retrieval processes utilizing MongoDB.
- Ensured high-availability architecture and a seamless end-to-end user experience.

• Paw-Waw | Pet Care & Service Management

- Implemented a production-grade full-stack MERN platform tailored for international client requirements.
- Constructed scalable and secure RESTful APIs to support high-traffic service operations.
- Refined MongoDB queries and database schemas to achieve enhanced system performance.
- Participated in production debugging, performance tuning, and peer code reviews.
- Designed responsive React.js interfaces to ensure a seamless and intuitive user experience.

Certifications & Virtual Experience

Accenture North America – Coding: Development & Advanced Engineering

April 2025

- Completed a simulated full-stack environment focusing on advanced engineering practices.
- Built and tested robust backend APIs using Node.js and Express.js.
- Managed data persistence and CRUD functionality using MongoDB.
- Practiced Agile methodologies, including sprint planning and backlog management.

Education

Master of Computer Applications (MCA)

2025

Anantrao Pawar College of Engineering & Research, Pune

Bachelor of Computer Applications (BCA)

2022

Dr. D. Y. Patil Arts, Commerce & Science College, Pimpri, Pune
